

U.S. District Court  
Human Resources Department  
401 W Washington Street  
Phoenix, AZ 85003

To Whom It May Concern:

I would like to recommend James Stockburger as a candidate for the Applications Administrator/Programmer position.

James was employed by Glynlyon in 2007 and transferred to the Quality Assurance Department in January 2017, as a Software Quality Analyst. In this position, James quickly established his mastery of the flagship software application and became a valuable team member. His ability to dive deep into the interoperability between the microservices and application layer allowed him to verify not only functionality, but security issues, as well.

James will be an asset to any employer and I believe he would be an excellent choice for the Applications Administrator/Programmer position. Thank you very much for your time and attention.

Kind Regards,

Donna J Pender  
Former Director, Quality Assurance and Process Improvement  
Glynlyon, Inc.
